

# Battery Reporting 2026

## Important deadlines

### Reporting of monthly volumes for January + February

Report to RETUR via [returportalen.retur.dk](https://returportalen.retur.dk).

**Deadline: 15 march**

Note: After this deadline, reporting will shift to a monthly frequency. This means that volumes for a given month must be reported no later than the 15th of the following month.

**March  
- April**

### Reporting of annual volumes for 2025

Report to RETUR via [returportalen.retur.dk](https://returportalen.retur.dk).

**Deadline: 20 April**

Note: All data must be reported to Dansk Producentansvar (DPA) no later than 30 June 2026.

 [Download guide on how to report](#)

**NOTE:** You only need to report to RETUR. We will make sure that your company's statutory reporting to the Danish Producers' Responsibility (DPA) is carried out once we have received your data.

## Useful materials

## Fees from Dansk Producentansvar (DPA)

Please note that you will be charged an annual administrative fee from DPA. Batteriretur is not responsible for this invoicing and does not know the size of the amount. [We refer to DPA's economy calculator](#) if you wish to know the price.
